Re: In re Pork Antitrust Litigation, Pork Product Scope

Dear Counsel:

On behalf of Tyson Foods, Inc., Tyson Prepared Foods, Inc., and Tyson Fresh Meats, Inc., I write in response to your emails of March 26, 2021 and March 30, 2021 on behalf of all Class Plaintiffs and the Commonwealth of Puerto Rico regarding the definition of "Pork Products" and the categories of products that will be included or excluded from Tyson's production of structured data. This letter is intended to describe how Tyson interprets your response to apply to the list of Tyson pork product categories that Tyson provided to All Plaintiffs via email on March 19, 2021 (which Class Plaintiffs requested to determine the products to be included or excluded), and to memorialize the parties' agreement on these issues. If Class Plaintiffs or Puerto Rico do not agree with any aspect of the description and memorialization in this letter, please let us know immediately. If Class Plaintiffs and Puerto Rico agree with the categorizations in this letter, then Tyson agrees to Plaintiffs' proposal and will proceed on this basis.

Tyson understands your email to mean that Plaintiffs propose that Tyson produce structured data on the products listed in the list of "Pork Products" below, and exclude the products listed in the list of "Non-Pork Products" below. Please let us know if you disagree with any of the categorizations below. In particular, we would appreciate confirmation that Plaintiffs do not expect Tyson to produce structured data on multi-protein products, such as multi-protein sausages, regardless of whether they qualify as "franks" (which does not have a precise meaning, and which was not included in the list of products that Plaintiffs requested from Tyson).
